FACILITIES

PROFESSIONALLY
GUIDED GAME
DRIVES IN TSAVO
EAST AND WEST

About The Sanctuary

We believe in sustainability and keeping it simple. Nyika Bird Sanctuary offers a safari on your doorstep in a peaceful, rustic setting. Completely off the grid, our buildings are made from eco friendly natural materials. We run on solar power and all the water is transported by donkey cart. Bordering Tsavo East National park the wildlife is on our doorstep, the Tsavo West park gate is 10kms away. We boast stunning views of Mt. Kilimanjaro and spectacular starry vistas. Great for couples, solo adventurers and families. Get back to basics and enjoy the Kenyan bush at its best.

Accommodation and Activities

Our accommodation facilities include a main house with King size double bed ensuite, 2 large single beds ensuite, fully operational kitchen, dining room, roof terrace, large veranda and living room area which can also accommodate two single beds.

The cottage is self catering and has additional private barbeque areas. Cleaning and turndown services are provided as well as all relevant crockery and toiletries (laundry is at a surcharge).

Most vegetables, fruits, drinks and meats can be obtained from Mtito town which we can collect for a surcharge.

We also have a campsite with two canvas tents erected, space to put your own tents, flushing toilet, shower, cooking area, BBQ space, mess tent and washing up area.

As well as bird and small game viewing on site we also offer guided trips into Tsavo East and West National Parks, guided bird walks and sundowners along both the Mtito and Athi river banks.

Trips to local communities, schools and Wakamba cultural talks with the tribal elders of the area are a great insight into these proud people who are arguably the most proficient in bush craft of all the Kenyan tribes.

Evenings on the roof offer stunning views of Mt. Killimanjaro, Chyulu Hills and Ngulia mountain range.

You can also just relax in our dip pool or rest on the veranda and watch the comings and goings of the bird table regulars.

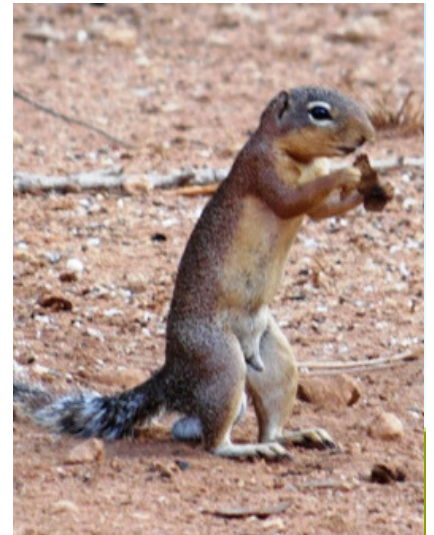

Getting To Us:

4x4 Vehicles are advised however during the dry months most vehicles will have no problem. Alternatively we can book bus or train tickets for you in advance and collect you from the stations.
